

2010–11

This survey is designed to provide schools with data useful for fostering a positive learning and working environment that promotes academic success among all students. Several questions have been added this year related to closing the racial/ethnic achievement gap, staff working conditions, and special education. Your survey participation is very important to insure accurate and useful data.

The first part of this survey is for all staff and should take less than 15 minutes to complete. The second part is only for staff who provide services or instruction related to health, prevention, discipline, counseling and/or safety.

- Answer the questions based on your experiences only at the school that asked you to complete it, not your experiences with the district overall or another school where you might also work.
- Questions about staff or adults at the school refer to ALL staff — administrators, teachers, teaching assistants, counselors, and all other certificated and classified staff.

All responses are anonymous and confidential. A few questions ask for personal information, such as the work you do at the school, how long you have done it, and your race/ethnicity. But the survey reports provided your district contain only percentages for all respondents combined. If there are less than 6 respondents in any group, that data are not made available.

***Note: This survey is typically administered online. This PDF is provided for review only.
Please do not administer without permission.***
